DETAILED ACTION

1. This communication is in response to the application filed 4 September 2003 and the preliminary amendment filed 15 February 2005. Claims 1-21 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, drawn to underwriting insurance and providing insurance policies, classified in class 705, subclass 4.
 - II. Claims 5-6, 12-13, 15-16, drawn to maintaining and utilizing databases, classified in class 707, subclass 104.1.
 - III. Claims 7, 20-21, drawn to classifying of input data, classified in class 706, subclass 20.
 - IV. Claims 8-9, 10-11, and 14, drawn to processing information using expert systems, classified in class 706, subclass 60.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II and III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as writing

an insurance policy or processing an insurance claim, and Invention II has separate utility such as specific applications of database schema and data structures to commercial fields. Invention III has separate utility such as using the system to categorize or identify input data. Invention IV has separate utility such as to applying a reasoning technique using an interface to a knowledge base or a knowledge processing system. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
